
Self-Publishing Review

Posted by selfpublishingreview - 2008/12/31 14:09

I want to introduce everyone to a new self-publishing site: The Self-Publishing Review - <http://www.selfpublishingreview.com>. As it says in the About section: "The aim of this site is to legitimize self-publishing not just as a fallback plan, but as an avenue that's increasingly necessary and useful in a competitive publishing industry. If the site has a manifesto it is to improve the culture around self-publishing."

I've self-published in the past. My novel, North of Sunset, was listed as the #1 self-published book in Entertainment Weekly and won the Hollywood Book Festival Grand Prize.

I'm interested in finding other writers who are interested in writing for the site " interviews, resources (How to Get an Agent, etc.), Book Reviews (ebook, novels, non-fiction, everything), publishing news, and other topics. Reviewers are especially important, as I want to be able to review all genres and formats, fiction & non-fiction.

Every writer will have a unique RSS feed and the ability to promote a book/site on every post they write, as well as in a "Contributors" section.

Please contact me at editor@selfpublishingreview.com if you're interested.

Thanks!

P.S. Back when my book was released, I wrote an article for Write and Publish Your Book about my experience self-publishing: <http://www.writeandpublishyourbook.com/publishing/self-publishing/true-stories-of-the-pod-publishing-people/>

Should I Remove the inspiron 1525 battery For A Desktop Replacement Laptop? Well, when using a laptop as a desktop replacement the inspiron 6400 battery should not be left in for long periods of time. The laptop will over time discharge the inspiron 1501 battery. Remove the hp pavilion dv6000 battery – making sure that it is charged to 40% and store it in a dry, warm place. Ensure that battery hp g60 is wrapped protectively and nothing will be dropped on it. The dv2000 battery should be re-installed every 3-4 weeks and allowed to fully discharge. Leaving dv5 battery in storage for longer than this without using could cause the battery to fully discharge as the circuitry of the dv9000 battery itself consumes power. Leaving the hp dv7 battery in a laptop while using an electrical outlet for long periods of time will keep the hp 484170 in a constant state of charging up and that will reduce the life cycle of the dell d620 battery. Remember that when you have removed the dell d630 battery from a laptop while using with an electrical outlet the automatic nv52 backup is no longer functional. For bps9 and bps8 battery drivers, they all can be installed in all xp/vista/windows7 32 bits operating system laptops; for bps12 till follow-up models battery drivers, such as bps13 they all can be installed in all vista/windows7 32 bits and 64 bits operating system laptops. A new pa3534u usually comes in a discharged condition with a very low capacity. It is highly recommended to fully charge new dell xps m1210 battery packs before use. A new dell 1545 battery pack needs to be cycled (fully discharged and recharged) three to eight times to reach its optimum performance. Rechargeable 1520 battery will undergo self-discharging when left unused for a long period of time. Thus, it should always be stored in a fully charged state and kept in a cool, dry and clean place. To maintain the optimum performance of a hp dv4 battery pack, it is highly recommended to cycle (fully discharging and recharging) it at least once a month.
